

**BOARD OF TRUSTEES  
CARSON CITY SCHOOL DISTRICT**

**REGULATION No. 216  
PROGRAM**

**TITLE I COMPARABILITY**

To ensure textbook/supply expenditure and staffing comparability among Title I and non-Title I schools, the Associate Superintendents of Human Resources and Educational Services will review staffing allocations and text-supply expenditures each year. Each year, one of the two following methods must be used:

Method A

1. Elementary project schools shall be compared only against elementary non project schools.
2. Middle School project schools shall be compared only against middle school non project schools.

These comparisons will ensure that elementary Title I schools are comparable in staffing and curriculum materials/instructional supplies

or

Method B

The District will demonstrate comparability by comparing the average of all non Title I schools (except the high school) against each Title I school in either of two areas:

1. Average number of students per instructional staff, or
2. Average instructional staff salary expenditure per student.

After a review of the data, any instances where comparability is not in evidence will be corrected.

These corrections will be reflected in the annual Title I Comparability Report that shall be submitted to the Nevada Department of Education by the state required deadline.
